Dear Jim,

Your dedication, hard work, and charming personality was critical in the successful sale of our home.

We appreciate your attention to detail when staging our home and making the best out of our existing furniture. Your advertising efforts (e.g., website, brochure, flags at major intersections, etc) did not go unnoticed either as demonstrated by the high volume of viewing requests we got for our house.

Your excellent service, frequent communication, professionalism, and dependability, made the sale process so much easier for us. Most of all, it is your frankness and down-to-earth personality was how we knew at the time we had selected the right Realtor.

We would certainly recommend your services to anyone that is interested in buying or selling a home.

Sincerest thanks,

Leo & Petty Luk
